The father of serial killer Jeffrey Dahmer describes his shock at hearing the news of his son's crimes, his entry into a world of complete denial, and how, during Jeffrey's trial, he placed himself in his son's shoes. 150,000 first printing.

On July 23, 1991, Milwaukee chemist Lionel Dahmer discovered - along with the rest of the world - that his son Jeffrey was a murderer who, over a period of many years, had carried out some of the most ghastly crimes ever committed. As the trial progressed, and the crimes of his son were graphically detailed, Lionel began to place himself in the dock beside his son. In the torturous weeks following Jeff's conviction, he continued his descent towards that harrowing point at which the line of his own life inevitably intersected with his son's. This book is not the story of Jeffrey Dahmer at all, but of a father who, by slow degrees, came to realize the saddest truth any parent may ever know: that following some unknowable process, his child had somewhere crossed the line that divides the human from the monstrous. It is both a touching family memoir and a haunting memoir - the account of a man who never relented in his effort to fathom the deepest quarters of his son's afflictions, even as they pointed to his own. It is a document on the nature of fatherhood, the origins of madness, and the role of kinship in the legacy of evil.

Shortlisted for the 2009 George Ryga Award. This is the story of an average family that has never been the same . . . since its eldest child was swarmed and killed by her peers on a moonlit night, November 14, 1997 . . . It is the story of what sudden and horrific violence can do to a family, and how a family somehow remains intact in the face of such events. —from the prologue by Lynne Van Luven At the time of their 14-year-old daughter Reena's murder, Manjit and Suman Virk had already been let down by both social-services and law-enforcement authorities. They had struggled with the challenges of conflicting cultures and religions and child-rearing ideologies, and with the anguish of allegations of wrongdoing and the tarnished reputations that resulted. Now Manjit speaks for the first time about life before and after the murder of Reena, a tragedy that remains one of the most widely discussed crimes of our time. It is a book about what was and what was not, about his immigration to a new land and his attempts to raise his family in a safe and simple fashion, about the events that forever derailed those efforts.

#1 NEW YORK TIMES BESTSELLER • **ONE OF ESSENCE'S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS** In this iconic memoir of his early days, Barack Obama "guides us straight to the intersection of the most serious questions of identity, class, and race" (The Washington Post Book World). "Quite extraordinary." Toni Morrison In this lyrical, unsentimental, and compelling memoir, the son of a black African father and a white American mother searches for a workable meaning to his life as a black American. It begins in New York, where Barack Obama learns that his father—a figure he knows more as a myth than as a man—has been killed in a car accident. This sudden death inspires an emotional odyssey—first to a small town in Kansas, from which he retraces the migration of his mother's family to Hawaii, and then to Kenya, where he meets the African side of his family, confronts the bitter truth of his father's life, and at last reconciles his divided inheritance. Praise for *Dreams from My Father* "Beautifully crafted . . . moving and candid . . . This book belongs on the shelf beside works like James McBride's *The Color of Water* and Gregory Howard Williams's *Life on the Color Line* as a tale of living astride America's racial categories." Scott Turow "Provocative . . . Persuasively describes the phenomenon of belonging to two different worlds, and thus belonging to neither." The New York Times Book Review "Obama's writing is incisive yet forgiving. This is a book worth savoring." Alex Kotlowitz, author of *There Are No Children Here* "One of the most powerful books of self-discovery I've ever read, all the more so for its illuminating insights into the problems not only of race, class, and color, but of culture and ethnicity. It is also beautifully written, skillfully layered, and paced like a good novel." Charlayne Hunter-Gault, author of *In My Place* "Dreams from My Father is an exquisite, sensitive study of this wonderful young author's journey into adulthood, his search for community and his place in it, his quest for an understanding of his roots, and his discovery of the poetry of human life. Perceptive and wise, this book will tell you something about yourself whether you are black or white." Marian Wright Edelman

"The true account of how Scott Lesnick persevered, not once but twice, to get his two small children back to the United States after they were abducted to the Middle East by the person he trusted most--his wife."--Page 4 of cover.

Children and adults will enjoy this touching tale of fatherly love and the fulfillment that a family brings to one's life. Join King Big Bear and his comrades as they try to put an end to the evil acts of the old wizard.

Fathers and Sons Speak documents the most memorable and significant learning's of a son who decided to hear his father's story after 28 years of absence. It is a challenge to the bitter, hopeless, careless, and unforgiving attitude that haunts many fathers and sons. It gives insight to women who fulfill the parent role in the absence of a man. It speaks to the gaps that exist as a consequence of the strained and nonexistent relationships between sons and fathers. It is a call to the generation of shattered and estranged families, encouraging them to come back together. It is an invitation to value stories while having the courage to share your own. It extends an invitation to value stories over comfort, pain, and fear.
