FREE Digital Signage for Everyone, seriously... Digital Signage is used typically to inform or advertise. There are major benefits for digital signs over traditional static signs, including the ability to update content remotely over the web, adapt the screens to your viewers and even interact with your local audience.

FREE Digital Signage for everyone

Personalized digital content. One specific use of digital signage is for out-of-home advertising in which video content, advertisements, and/or messages are displayed on digital signs with the goal of delivering targeted messages, to specific locations and/or consumers, at specific times. This is often called "digital out of home" (DOOH).

Digital signage - Wikipedia

Opensignage offers free digital signage software and an extensive, rapidly growing media library with royalty free stock footage, stock clips, stock video, animations, modules, apps and widgets with which you can create and maintain your own playlist, broadcast, TV Channel, displays, screen network by a webbased Content Management System (CMS) in the cloud.

Opensignage - Narrowcasting Content Management Systeem

Many argue that digital signage is only as good as it is personal and showing someone else's content - a newsfeed, or perhaps a TV series, is a lazy way of attracting attention. For us, we believe in the power of a shared viewing experience, which will differ depending on context, audience and use case.
