Run, do not walk, to Ermis Double E Grocery & Restaurant! Friendly service, homemade dishes, in-house made Ranch, anything that was fried wasn't greasy, and the Long Islands were like being at the lake in Summer. I cannot say enough good things. The only thing better than the food is the atmosphere.

Ermis was a great friend for 43 years and absolutely no one can ever  
replace his huge personality. One of a kind in humour and with a  
massive heart. So many of his jokes, sayings etc, will bring a smile  
to my face as I remember them and his life. As he used to say to all  
his campers, Slainte.

"This book presents a vital compendium of research detailing the latest case studies, architectures, frameworks, methodologies, and research on Digital Democracy"--Provided by publisher.

This important new volume presents recent research in healthcare information technology and analytics. Individual chapters look at such issues as the impact of technology failure on electronic prescribing behavior in primary care; attitudes toward electronic health records; a latent growth modeling approach to understanding lifestyle decisions based on patient historical data; designing an integrated surgical care delivery system using axiomatic design and petri net modeling; and failure in a dynamic decision environment, particularly in treating patients with a chronic disease. Other chapters look at such topics as the impact of information technology integration in integrated delivery systems; operations and supply chain control for inventory management in a health system pharmacy; decision-theoretic assistants based on contextual gesture recognition; evaluating emergency response medical information systems; clinical decision support in critical care; virtual worlds in healthcare; and natural language processing for understanding contraceptive use at the VA.

Woodhead Publishing in Food Science, Technology and Nutrition '... a good reference book for food processors and packers of herbs and spices.' Food Technology (of Volume 1) '... a standard reference for manufacturers who use herbs and spices in their products.' Food Trade Review (of Volume 2) The final volume of this three-volume sequence completes the coverage of the main herbs and spices used in food processing. The first part of the book reviews ways of improving the safety of herbs and spices. There are chapters on detecting and controlling mycotoxin contamination, controlling pesticide and other residues, the use of irradiation and other techniques to decontaminate

herbs and spices, packaging and storage, QA and HACCP systems. Part two reviews the potential health benefits of herbs and spices with chapters discussing their role in preventing chronic diseases such as cancer and cardiovascular disease and promoting gut health. The final part of the book comprises chapters on twenty individual herbs and spices, covering such topics as chemical composition, cultivation and quality issues, processing, functional benefits and uses in food. Herbs and spices reviewed range from asafoetida, capers and carambola to perilla, potato onion and spearmint. The final volume will consolidate the reputation of this three-volume series, providing a standard reference for R&D and QA staff using herbs and spices in their food products. The final volume of this three-volume sequence completes the coverage of the main herbs and spices used in food processing Incorporates safety issues, production, main uses and regulations Reviews the potential health benefits of herbs and spices

Bridges-Texas-Brazos river. 2. Bridges-Texas-Brazos River Pictorial works.

The only work available in English that treats the Türk Empire and the history of Sino-Türk relations in the Tang era authoritatively - and provides an excellent edition and translation of the runiform texts. An essential source book.

The emerging idea of the semantic web is based on the maximum automation of the complete knowledge lifecycle processes: knowledge representation, acquisition, adaptation, reasoning, sharing and use. Text-based based browsers involve a costly information-retrieval process: descriptions are inherently subjective and usage is often confined to the specific application domain for which the descriptions were created. Automatic extracted audiovisual features are, in general, more objective, domain-independent and can be native to the audiovisual content. This book seeks to draw together in one concise volume the findings of leading researchers from around the globe. The focus, in particular, is on the MPEG-7 and MPEG-21 standards that seek to consolidate and render effective the infrastructure for the delivery and management of multimedia content. Provides thorough coverage of all relevant topics, including structure identification in audiovisual documents, object-based video indexing, multimedia indexing and retrieval using natural language, speech and image processing methods Contains detailed advice on ontology representation and querying for realizing semantics-driven applications Includes cutting-edge information on multimedia content description in MPEG-7 and MPEG-21 Illustrates all theory with real-world case studies gleaned from state-of-the-art worldwide research. The contributors are pioneers in the fields of multimedia analysis and knowledge technologies This unified, comprehensive up-to-date resource will appeal to integrators, systems suppliers, managers and consultants in the area of knowledge management and information retrieval; particularly those concerned with the automation of the semantic web.

The detailed, theory-based practical advice is also essential reading for postgraduates and researchers in these fields.

The series is a platform for contributions of all kinds to this rapidly developing field. General problems are studied from the perspective of individual languages, language families, language groups, or language samples. Conclusions are the result of a deepened study of empirical data. Special emphasis is given to little-known languages, whose analysis may shed new light on long-standing problems in general linguistics.
