The pandemic has made teaching English as a second language more challenging than before. A revamp of teaching strategies was warranted on the part of teachers. English teachers were pushed into adopting all new strategies with an ill-aided technical support and adapting to newer forms of learning. All pressures – social, economic, political, familial, technological, biological and psychological – were brought upon them. Playing newer roles and employing newer strategies have become inevitable. Undertaking the challenge of running online classes is inescapable. This book with 23 articles aims at addressing all challenges English teachers face while teaching online and offering solutions.
