An introduction to the Droid X explains how to get the most out of the device, with a hands-on approach to learning the Droid X functions and applications, a review of its features, customization tips and tricks, and instructions to help users master theDroid X.

“ Definitely, a game changer! Design experience is the power shift to our era what mass marketing was to the last century. ” John Sculley former CEO, Pepsi and Apple “ Great design is about creating a deep relationship with your customers. If you don ' t, you ' re roadkill. This book shows you how and much, much more. Be prepared to have your mind blown. ” Bill Burnett

Executive Director, Design Program, Stanford University “ Design is the last great differentiator, and yet so few really understand it. Do You Matter? offers a marvelous series of direct, in-your-face observations and drives home the means to an absolutely integrated design strategy. ” Ray Riley Design GM, Entertainment and Devices, Microsoft “ This book will challenge you to ask and answer what arguably are the most important questions an executive can ponder today. So open up. ” Noah Kerner CEO, Noise and coauthor, Chasing Cool More and more companies are coming to understand the competitive advantage offered by outstanding design. With this, you can create products, services, and experiences that truly matter to your customers' lives and thereby drive powerful, sustainable improvements in business performance. But delivering great designs is not easy. Many companies accomplish it once, or twice; few do it consistently. The secret: building a truly design-driven business, in which design is central to everything you do. Do You Matter? shows how to do precisely that. Legendary industrial designer Robert Brunner (who laid the groundwork for Apple's brilliant design language) and Stewart Emery (Success Built to Last) begin by making an incontrovertible case for the power of design in making emotional connections, deepening relationships, and strengthening brands. You'll learn what it really means to be "design-driven" and how that translates into action at Nike, Apple, BMW and IKEA. You'll learn design-driven techniques for managing your entire experience chain; define effective design strategies and languages; and learn how to manage design from the top, encouraging "risky" design innovations that lead to entirely new markets. The authors show how (and how not) to use research; how to extend design values into marketing, manufacturing, and beyond; and how to keep building on your progress, truly "baking" design into all your processes and culture.

This book shows how to build a "INFelecPHY GPS Unit" (IEP-GPS) tracking system for fleet management that is based on 3G and GPRS modules. This model should provide reliability since it deals with several protocols: 1) HTTP and HTTPS to navigate, download and upload in real time the information to a web server, 2) FTTP and FTTPS to handle in a non-real time the files to the web application, and 3) SMTP and POP3 to send and receive email directly from the unit in case of any alert. Similar to a mobile device, but without screen for display, it is multifunctional because it links to a GPRS module, a camera, a speaker, headphone, a keypad and screen.

"Digital Evidence and Computer Crime" provides the knowledge necessary to uncover and use digital evidence effectively in any kind of investigation. This completely updated edition provides the introductory materials that new students require, and also expands on the material presented in previous editions to help students develop these skills.

O livro mostra como e porque as empresas devem colocar o Design no topo e foco estratégico de seus negócios. Tremendamente inovador a obra vai mexer e mudar a cabeça de executivos e profissionais de marketing, produção, design, vendas e estratégia. Design como foco estratégico nas empresas, este é o tema central deste instigante e inovador livro. Agora mais que nunca, a gestão do design torna-se um aliado estratégico para o sucesso das empresas. Ser focado em design não significa fazer produtos maravilhosos, simplesmente. Significa como uma empresa consegue transmitir uma ideia emocional positiva para os clientes. O livro mostra como implantar um ótimo design em sua cultura comercial. O design de experiências centrado no cliente é a chave para transformar as empresas. O livro inclui ainda dois temas altamente inovadores: A Gestão da Cadeia de Suprimentos das Empresas e Importância de se Criar um Portal de Experiências Estes dois itens são fundamentais na transformação de uma empresa que faz design, em uma empresa cujo foco estratégico é o design.

The definitive guide to penetrating and defending wireless networks. Straight from the field, this is the definitive guide to hacking wireless networks. Authored by world-renowned wireless security auditors, this hands-on, practical guide covers everything you need to attack -- or protect -- any wireless network. The authors introduce the 'battlefield,' exposing today's 'wide open' 802.11 wireless networks and their attackers. One step at a time, you'll master the attacker's entire arsenal of hardware and software tools: crucial knowledge for crackers and auditors alike. Next, you'll learn systematic countermeasures for building hardened wireless 'citadels' including cryptography-based techniques, authentication, wireless VPNs, intrusion detection, and more. Coverage includes: Step-by-step walkthroughs and explanations of typical attacks Building wireless hacking/auditing toolkit: detailed recommendations, ranging from discovery tools to chipsets and antennas Wardriving: network mapping and site surveying Potential weaknesses in current and emerging standards, including 802.11i, PPTP, and IPSec Implementing strong, multilayered defenses Wireless IDS: why attackers aren't as untraceable as they think Wireless hacking and the law: what's legal, what isn't If you're a hacker or security auditor, this book will get you in. If you're a netadmin, sysadmin, consultant, or home user, it will keep everyone else out.

This book shows how to build a "INFelecPHY GPS Unit" (IEP-GPS) tracking system for fleet management that is based on 3G and GPRS modules. This model should provide reliability since it deals with several protocols: 1) HTTP and HTTPS to navigate, download and upload in real time the information to a web server, 2) FTTP and FTTPS to handle in a non-real time the files to the web application, and 3) SMTP and POP3 to send and receive email directly from the unit in case of any alert. Similar to a mobile device, but without screen for display, it is multifunctional because it links to a GPRS module, a camera, a speaker, headphone, a keypad and screen.

3 extraordinary books help you drive maximum value from business innovation, design, and creativity! Predictable Magic: Unleash the Power of Design Strategy to Transform Your Business introduces a breakthrough process for crafting rewarding, empowering customer experiences that create deep emotional connections with your products, services, and brands. Do You Matter?: How Great Design Will Make People Love Your Company shows how to build a truly design-driven company: one that can consistently create designs that drive sustainable business performance improvements. Finally, in Disrupt: Think the Unthinkable to Spark Transformation in Your Business, frog design's Luke Williams integrates powerful creativity techniques with business discipline in a five-step program for identifying disruptive opportunities – and successfully executing on them! From world-renowned leaders in business innovation and design, including Ravi Sawhney, Deepa Prahalad, Robert Brunner, Stewart Emery, and Luke Williams
