As with all Workbench Series books, this book is packed with detailed photos and comprehensive captions, where you are guided step by step through the disassembly, machine work, assembly, start-up, break-in, and tuning procedures for all iterations of the 4.6-/5.4-liter engines, including 2-valve and 3-valve SOHC and the 4-valve DOHC versions. The Ford Boss Mustang is the most iconic pony car ever created, and this book covers it more extensively than any other. Boss Mustang: 50 Years—a fully expanded version of Mustang Boss 302—includes the complete history of its creation; racing and street histories of both the 302 and 429 models; and photos and interviews with Boss Mustang designers, engineers, racers, and more. Of all the legendary names in the history of the Ford Mustang, one stands apart: Boss. Originally created to homologate the new Boss 302 engine and option package for SCCA Trans-Am racing, the Mustang Boss 302 debuted for the 1969 model year and was built in limited numbers for the street through 1970. This book features never-before-seen production and racing photography, interviews with designers and engineers, and keen insight from author Donald Farr, a renowned Ford historian and Ford hall-of-fame inductee. Designed by the legendary Larry Shinoda, the Boss cars were easily distinguished from their less potent stablemates by their race-bred powerplant, standard front spoiler, and bold graphics. In 2012, Ford at long last revived this most revered of all Mustang models. With a new racing counterpart and a modern street version that delivers more than 440 horsepower, the Boss was truly back! In 2013, Ford rolled out the Boss one more time. In Boss Mustang: 50 Years, Mustang historian Donald Farr offers a complete history of the car—from its late 1960s origins in Ford's boardrooms through its Trans-Am successes and untimely demise in 1970, up to the conception and development of the spectacular, limited-edition 2012 and 2013 Boss Mustangs. Packed with brilliant photography and firsthand accounts from the people who created the original Boss, as well as the team that resurrected Ford's most iconic Mustang for the 21st century, this is the story every Mustang enthusiast has been waiting to read.

Author Steve Magnante is well known for his encyclopedia-like knowledge of automotive facts. The details he regularly shares, both in the pages of national magazines and as a contributing host and tech expert at the popular Barrett-Jackson Auctions on television, are the kinds of details that car fanatics love to hear. Many feel that these facts are among the highlights of television auction coverage, much more interesting than the final hammer price.
