A New York Times bestseller and one of the Ten Best Business Books of 2013 by WealthManagement.com, this book brings a new vision of the value of debt in the management of individual and family wealth. In this groundbreaking book, author Tom Anderson argues that, despite the reflex aversion most people have to debt—an aversion that is vociferously preached by most personal finance authors—wealthy individuals and families, as well as their financial advisors, have everything to gain and nothing to lose by learning to think holistically about debt. Anderson explains why, if strategically deployed, debt can be of enormous long-term benefit in the management of individual and family wealth. More importantly, he schools you in time-tested strategies for using debt to steadily build

Corporate Finance, by Ross, Westerfield, and Jaffe is a popular textbook that emphasizes the modern fundamentals of the theory of finance, while providing contemporary examples to make the theory come to life. The authors aim to present corporate finance as the working of a small number of integrated and powerful intuitions, rather than a collection of unrelated topics. They develop the central concepts of modern finance: arbitrage, net present value, efficient markets, agency theory, options, and the trade-off between risk and return, and use them to explain corporate finance with a balance of theory and application. The well-respected author team is known for

their clear, accessible presentation of material that makes this text an excellent teaching tool. Brad Jordan, known for his successful work on the RWJ Fundamentals and Essentials books, contributed to this edition. His influence will be seen particularly in the writing style with smoother coverage of topics, and the increased quality in the problem material.
