The AP Physics B Exam covered a full-year non-calculus college course on general physics, intended for students not majoring in a physical science or engineering. The Physics B free response questions, sample student responses, and scoring commentary are resources that can be used by those teaching AP Physics 1 and Physics 2.

This response earned full credit and showed calculations that treated units and orders of magnitude clearly and carefully. While the ratio of vector components in part (b) does not match the answer from part (a), the rubric only requires that the vector be closer to the x- axis than the y-axis.
